

Question Part

1 A third world war has been a threat since
 2 the end of the second one. It is said that there
 3 is a low possibility for a third world war, but
 4 with what's been going on, ~~I don't think~~ that statement
 5 isn't true. A third world war could happen now.
 6 With the tensions rising between China and
 7 Taiwan it's possible to spark a reaction from
 8 Japan, leading to a major conflict. Most of these
 9 events are taking place in ~~Asia~~ Asia, China
 10 and Taiwan and the Chinese and Indian border
 11 shoot outs. But not only are tensions rising in
 12 Asia but tensions are rising in Europe. All
 13 of these tensions are rising but there is
 14 still one fear among these countries, a third
 15 world war. Countries fear of a third world war
 16 because it can easily lead to nuclear action.
 17 ~~Even~~ Even then it doesn't erase the fact a
 18 third world war could happen.

19 The main tension that is rising in Europe
 20 is the tensions between Russia and
 21 Ukraine. Russia sent troops to the border
 22 of Ukraine, fortifying their borders and it
 23 looks like Russia is ready to invade Ukraine.
 24 With tensions rising between Russia and
 25 Ukraine at the border it could lead to border
 26 skirmishes. Russia is making a bold move
 27 and all it's doing is raising the tensions between
 28 the two nations which could very well
 29 lead to conflict, dragging ~~NATO~~ NATO to make
 30 a decision to take military action against
 31 Russia or not.

Question Part

32 China is making a very bold decision in
 33 saying that they are going to re-take
 34 Taiwan. Being that Taiwan is and has been
 35 free from the communist country of China, Taiwan
 36 looked to the U.S. to help build up their
 37 power and China doesn't like that. China
 38 wants to gain control over Taiwan again
 39 and by doing so it could lead to a third
 40 world war. Japan after hearing that China
 41 wants to invade Taiwan said that if China
 42 were to invade the small nation that they would
 43 take military action against China. After which
 44 lead China to threaten Japan with nuclear
 45 force. All of the tensions rising in Asia
 46 could lead to a third major conflict that
 47 no one wants.

~~After a long lengthy war with the Taliban, ISIS, and Al-Qaeda in Afghanistan leading to a hasty retreat of withdraw after 20 years of fighting the~~

word 320 ~~48~~ 49 After a ~~long~~ lengthy war in Afghanistan 48
 49 with the Taliban the U.S. withdrew, leaving
 50 billions of dollars of military equipment.
 51 Not long after China made an alliance
 52 with the Taliban. This alliance could lead to
 53 tensions rising causing a third world war. The
 54 Taliban, after the withdraw, got their hands
 55 on helicopters, light attack aircraft, m1ap's
 56 (mine resistant armored personnel carrier), ~~and~~
 57 ~~hundreds~~ ~~hundreds~~, hundreds of thousands of
 58 M4 assault rifles and armor and lastly →

Question Part

59 Night vision goggles, the Chinese made
 60 ~~an~~ ^{an} alliance to help the Taliban maintain and
 61 learn how to use the equipment left behind.
 62 China helping the Taliban with this equipment
 63 could lead to tensions rising between the
 64 U.S. and China and even worse a possible
 65 terrorist attack on the U.S.

66 Even though tensions are high and a
 67 third world war is possible, there were
 68 organizations made to prevent a third
 69 world war from happening. An organization
 70 called the United Nations was made to
 71 end all major world conflicts. After
 72 world war 2 most if not all major
 73 nations came together and ~~agreed~~ agreed
 74 not to have another war like world war 2.
 75 World War 2 left many countries destroyed
 76 and killed millions and now that we
 77 have nuclear weapons hundreds of times
 78 more powerful than the ones dropped on
 79 Hiroshima and Nagasaki, a third world
 80 war would be far more deadlier than
 81 world war 2.

82 A third world war could not happen
 83 because the threat of nuclear war.
 84 Nuclear war has been a threat since
 85 Russia and the U.S. had the Cold War,
 86 but it never happened because countries
 87 fear the power of those weapons. Nuclear
 88 war could end all life on earth
 89 possibly even destroying the whole planet,

words
 about 540

Question Part

90 if a ~~ABC~~ nuclear war were to
 91 happen these are the possible outcomes,
 92 no one would win. That's why countries fear
 93 the power of those weapons and it's possible
 94 that nuclear weapons ~~are~~ are the only thing
 95 preventing this war.

96 A third world war is more possible
 97 than not, with tensions rising in
 98 Europe and the South China sea it's
 99 more ~~of~~ possible than not an ~~invasion~~
 100 invasion is going to happen. ~~IA~~ In the
 101 South China sea, China states that they
 102 were planning to invade Taiwan by
 103 January. If so it would trigger a response
 104 from Japan leading to China attacking
 105 Japan which will lead NATO to attack
 106 China. In Europe Russia is sending forces
 107 to Ukraine's border and triggering NATO
 108 to send forces to Germany ready for
 109 Russia to invade leading to a third world
 war
